NARESH MAHIPAT MORE

Principal Engineer | Enterprise Integration | Life Sciences | AI-Assisted Engineering
Thane, Maharashtra +91 9967909251 naresh2482@yahoo.co.in

PROFESSIONAL SUMMARY

Principal Engineer with 14+ years of experience designing, developing, and delivering enterprise-grade applications and integration solutions using Node.js, .NET Core, REST/SOAP APIs, and microservices architecture.

Experienced in system design, enterprise integrations, backend development, performance optimization, and production troubleshooting, with strong domain experience in Life Sciences and laboratory software integrations.

Experience in mentoring engineers, collaborating with engineering teams, solving complex technical and integration challenges, conducting technical investigations, and contributing to engineering best practices.

Strong hands-on engineering background with experience applying clean architecture, design principles, API design, distributed systems concepts, and integration patterns to build reliable, maintainable, and scalable enterprise applications.

CORE SKILLS

Solution Analysis • Technical Design • Enterprise Integration • Backend Development • Framework Development • Architecture Discussions • Code Reviews • Estimation • Sprint Planning • Release Management • Customer Issue Investigation • Technical Documentation • Mentoring • Production Support

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, C#, SQL
- **Backend:** Node.js, Express, .NET Core, .NET Framework
- **Integration:** REST, SOAP, OPC UA, OPC Classic, ODBC/SQL, Serial Communication, File Systems
- **Databases:** MongoDB, SQL Server, SQLite
- **Cloud & DevOps:** Git, Bitbucket Pipelines, SonarCloud, Snyk
- **AI:** Claude AI, ChatGPT, GitHub Copilot, architect-developed Claude Agents/Skills/Commands workflows

PROFESSIONAL EXPERIENCE

Scitara Technologies Private Limited
Principal Engineer | May 2021 – August 2026

- Designed, developed, and delivered .NET-based laboratory instrument integration applications, including Windows File System, LabX, Local Web Service, Amber250, RCCF, RCCP, and OPC UA/OPC Classic integrations, from requirements and technical design through production deployment.
- Developed and enhanced Node.js-based enterprise connectors integrating laboratory and Life Sciences applications through REST and SOAP APIs, including BIOVIA ONE Lab, Veeva QualityDocs, Signals, LabWare GLIMS, LabVantage, and Microsoft 365 Excel, along with framework enhancements and production support.
- Design and implement enterprise integrations using REST APIs, SOAP, OPC UA/Classic, ODBC/SQL, serial communication, and Windows file-system interfaces.
- Build reusable framework components and shared services, improving maintainability and code reuse across the connector portfolio.
- Author Design Specifications, FRS/URS, test plans, troubleshooting guides, and release documentation.
- Perform root-cause analysis on production issues spanning authentication, certificates, connectivity, file transfer, and industrial protocols; resolve SonarCloud and Snyk findings to strengthen code quality and security.

- Apply AI-assisted engineering, Claude AI, GitHub Copilot, ChatGPT, and custom Claude Agents/Skills/Commands to accelerate analysis, debugging, and documentation; mentor engineers and review pull requests.

PREVIOUS EXPERIENCE

Mihuru (iTraveleo Pvt. Ltd.) (Aug 2020 – Feb 2021)
Re-architected a personal finance platform using Clean Architecture, CQRS, Mediator, .NET Core, Angular, SQL Server, and Azure; integrated FinBit, Equifax, and piChain for financial verification.

LearningMate Solutions (Mar 2018 – Jan 2020)
Developed enterprise education platforms using Angular, React, ElectronJS, Node.js, AWS Lambda, and C#; led module delivery, REST APIs, and automated testing (Jest, Mocha, Chai, Enzyme).

Eki Communications (Jan 2013 – Mar 2018)
Built survey authoring, reporting, dashboard (FusionCharts/Google Charts), and workflow automation modules using AngularJS, Node.js, MongoDB, and C#.NET.

Analyze N Control (Jan 2011 – Dec 2012)
Developed Anti-Money Laundering (AML) and enterprise business applications, fraud detection, reporting, and sales modules using C#, ASP.NET, SQL Server, SSIS, and ADO.NET.

EDUCATION

PG Diploma in Embedded System Design - CDAC Pune, Nov- 2010.

BE (Computer Engineering) - Mumbai University June-2009.

Diploma in Computer Engineering - MSBTE (Maharashtra State Board of Technical Education) May-2006.
